

## SPEEDY MOUSE

MOTORMOUSE is an optical wireless mouse based on an iconic sports car. It features the smallest 2.4G wireless receiver in the world, a high quality paint finish available in black, silver and metallic red, chrome alloy wheels and real rubber tyres. Motormouse certainly appealed to the multi-millionaires on *The Dragons' Den* and a convincing pitch from its creators secured a sizeable backing from Dragon James Caan on the final edition of the TV series.

■ Its rrp is £29.99 (€33.65) and it can be purchased at [www.motor-mouse.net](http://www.motor-mouse.net)

## THE DRIVE-BY ALARM CLOCK

CLOCKY is a patented alarm clock that runs away and hides to get you out of bed. The cheeky Clocky gives you one chance to get up, but if you snooze, Clocky will jump off your nightstand and wheel around your room looking for a place to hide, beeping all the while. You'll have to get out of bed to silence his alarm. Clocky is kind of like a misbehaving pet, only he will get up at the right time.

## LEGO BOARD GAMES

THE new Lego board games are cool. Pick of the bunch is Lego Minotaurus, Age 7+ (but you can tell the toy shop people it's for the kids!!), a €22.99 game of logic and trickery for two to four players. First you build the game, then you play it, then you change format. Lead your hero to the secret temple in the Minotaur's labyrinth, placing walls to block your foes.

■ Lego Rameses Pyramid, €24.99 and Lava Dragon, €12.99 are also hotly tipped.

## STEERING FUN

**TOP Gear: Power Sliding GTR Steering Wheel Car.** The revolutionary motion sensitive steering wheel controls the car without any need for conventional joysticks. As well as being easy to use, the car is specially designed to 'drift' around corners. It takes practice but is very cool, especially as the car is a Nissan GTR.

## RHYTHM STICKS

PERFECT for the air drummer, **Rhythm Sticks** has a speaker in its base, and when you 'hit' the air with them, they make a great drum sound. Switches on the sticks let you choose between a classical drum beat, an electronic drum beat and a cymbal crash. The ends even light up with each beat — vital for night drumming. If you only get one set of these, then you're going to have a lot of fighting on your hands from everyone else wanting to have a go. Rock on.
