INTRODUCTION

Motor Mouse was born in 2009, and almost immediately became a hit after the founders appeared on the BBC's Dragons Den. The idea being quality computer mice in the form of iconic cars with well thought out design and outstanding engineering. The original Motor Mouse, the Classic Sportscar, received backing from the investor James Caan. In November 2014 we purchased the company to continue its success. With plans for new models and to continue its quality we sincerely hope you love it as much as we do and our customers do.

HERE IS A SAMPLE OF OUR CUSTOMER FEEDBACK FROM THE PAST FEW MONTHS

"I purchased your fabulous Motor Mouse about a year ago on a Copenhagen/Manchester flight. I bought it for my Grandson who lives for his computer and I have to say I love it!"

"Thanks a million, much appreciated. This is what I call a very good customer service."

"Awesome! It's really service great from you and your company. I would thank you in person if one day our path cross again! Anyways, I wish you all the best and good luck."

"Thank you for your help I received the mouse today, very fast service thank you."

PRODUCTS

THE CLASSIC SPORTSCAR

RRP - £32.99

The original Motor Mouse, the Classic Sports car was the first of our superbly manufactured mice. This is an exceptional ergonomic mouse that is comfortable for all day use and feels solid in your hand! It will turn heads and wow with its chrome alloy wheels, rubber tyres and working headlights. It features an opening boot where the batteries go and you can store the receiver to keep it safe when not in use. The mouse comes in 5 classy colours; black, red, pink, silver and blue.

As with all our wireless mice it features clever power saving technology so that when the mouse is not in use it does not run the batteries flat. It comes with a unique 2.4 GHz wireless receiver which is the smallest in the world! The mouse has a 1200DPI optical sensor that provides precise and stable movement making usage faster and more accurate. The mouse also features a 'spare tyre' type scroll wheel which is super wide and comfortable.

Also in the box is a mouse mat, batteries and a microfiber carry pouch to keep it safe from wear and tear when being carried around.

THE ASTON MARTIN DB9

RRP - £34.99

The latest release by 'Q' at leading brand Motor-Mouse is the Aston Martin DB9. With working headlights and exquisite detail, this is a high tech fully functioning, wireless mouse that will grace any executive's desk. It is perfectly suited for extended usage as the mouse fits perfectly in your hand; it is ergonomic and looks the part.

As with all our wireless mice it features clever power saving technology so that when the mouse is not in use it won't use up all that fuel. It comes with a unique 2.4GHz wireless receiver which is the smallest in the world! The mouse has a 1200DPI optical sensor that provides precise and stable movement making usage faster and more accurate.

Also in the box is a mouse mat, batteries and a microfiber carry pouch to keep it safe from wear and tear when being carried around.

THE CLASSIC MINI COOPER

RRP - £ 34.99

Our first iconic branded product, this is an exact replica of the original 1960's Classic MINI, but with the same beautiful engineering quality of our original Motor-Mouse. Think 'The Italian Job' and relive those glory days by having this fantastic optical wireless mouse on your desk. With opening boot just like our other mice, it's exceptionally well built and looks great.

The mouse comes in three brilliant colours; Red, White and Blue and each mouse now includes a decal sheet so that you can customise it to your liking.

As with all our wireless mice it features clever power saving technology so that when the mouse is not in use it won't use up all that fuel. It comes with a unique 2.4 GHz wireless receiver which is the smallest in the world! The mouse has a highly sensitive 1200DPI optical sensor that provides precise and stable movement making usage faster and more accurate.

Also in the box is a mouse mat, batteries and a microfiber carry pouch to keep it safe from wear and tear when being carried around.

THE BMW MINI COOPER S

RRP - £33.99

The MINI Cooper S – the stylish iconic up to date MINI cooper S with all the engineering quality of Motor Mouse. Included is the decal sheet and you can have the union jack or chequerboard roof – even create your own number plate! This is another beautifully engineered optical wireless mouse that will put drive into your computing.

As with all our wireless mice it features clever power saving technology so that when the mouse is not in use it won't use up all that fuel. It comes with a 2.4GHz wireless receiver which is the smallest in the world! The mouse has a 1200DPI optical sensor that provides precise and stable movement making usage faster and more accurate.

Also in the box is a portable mouse mat, batteries and a microfiber carry pouch to keep it safe from wear and tear when being carried around.
